

Phenomena is always all this  
and much more somebody never understands:

” The **iterative enfolding**  
**of phenomena** and **the**  
**shifting of boundaries** entail  
an iterative reworking of the **domains of**  
**interiority and exteriority** thereby  
reconfiguring space itself,  
**changing topology.** “

Aus: Re(con)figuring Space, Karen Barad
